RATING REVISION

The Corporate Governance Rating (7.26) that has been assigned to Lider Faktoring Hizmetleri A.Ş. on 21.05.2009 is hereby revised up to **7.26**.

In consideration of Lider Faktoring Hizmetleri A.Ş.'s determination to apply corporate governance principles, its willingness to manage this process dynamically and continuously, and finally the improvements affected during the fourteen months lapsed since the publication of the original report, the corporate governance rating of the company is revised as above.

Main improvements that affected the above revision are:

- There is a specific and consistent dividend policy which is submitted to the shareholders at the general shareholders' meeting and is incorporated in the annual report.
- The board has prepared a collective set of written principles to be used in the public disclosure and information policy of the company. This information policy is disclosed to the public and presented to the shareholders at the general shareholders' meeting.
- The company's annual report includes information about the scope of activities of the company; board of directors' evaluation and analysis of financial status and operation results; level of achievement of the planned operations; financial statistics and charts; the sector in which the company operates and the company's status within this sector.

The sub-section ratings are revised as follows:

Sub Sections	Weight	Rating
Shareholders	%35	80,86
Public Disclosure and Transparency	%20	78,05
Stakeholders	%15	84,34
Board of Directors	%30	62,00
Total		75,16

Rating Methodology

SAHA's "Private, Factoring, Leasing & Finance Companies" methodology (FLF-Priv.) for rating the degree of compliance with the Principles of Corporate Governance is based upon the Capital Markets Board's (CMB) Corporate Governance Principles released on July 2003, as revised on February 2005.

The CMB based these principles on the leading work of the Global Corporate Governance Forum (GCGF), which has been established in cooperation with the World Bank and the Organization of Economic Cooperation and Development (OECD). After having incorporated the views and opinions of experts and representatives from the CMB, the Istanbul Securities Exchange, the Turkish Corporate Governance Forum, academicians, private sector representatives as well as various professional organizations and NGOs, the Principles were adopted to reflect the national characteristics and conditions.

Within the Principles, "comply or explain" approach is valid. The implementation of the Principles is optional. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the company's governance practices in the future should all be included in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public

disclosure and transparency, stakeholders and board of directors.

On the foundation of these Principles, SAHA Corporate Governance Rating methodology features over 400+ code criteria. During the rating process, each criterion is evaluated on the basis of information provided by the company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions).

Parallel to the CMB's directive, to reach an overall Corporate Governance Rating for "Private, Factoring, Leasing & Finance Companies" (FLF-Priv.), SAHA allocates the following weights to the four main sections of the Principles:

Shareholders: **35%**
Disclosure and Transparency: **20%**
Stakeholders: **15%**
Board of Directors: **30%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.

Rating Definitions

Rating	Definition
9 - 10	The company performs very good in terms of Capital Markets Board's corporate governance principles. It has, to varying degrees, identified and actively managed all significant corporate governance risks through comprehensive internal controls and management systems. The company's performance is considered to represent best practice, and it had almost no deficiencies in any of the areas rated.
7 - 8	The company performs good in terms of Capital Markets Board's corporate governance principles. It has, to varying degrees, identified all its material corporate governance risks and is actively managing the majority of them through internal controls and management systems. During the rating process, minor deficiencies were found in one or two of the areas rated.
6	The company performs fair in terms of Capital Markets Board's corporate governance principles. It has, to varying degrees, identified the majority of its material corporate governance risks and is beginning to actively manage them. Management accountability is considered in accordance with national standards but may be lagging behind international best practice. During the ratings process, minor deficiencies were identified in more than two of the areas rated.
4 - 5	The company performs weakly as a result of poor corporate governance policies and practices. The company has, to varying degrees, identified its minimum obligations but does not demonstrate an effective, integrated system of controls for managing related risks. Assurance mechanisms are weak. The rating has identified significant deficiencies in a number (but not the majority) of areas rated.
<4	The company performs very weakly and its corporate governance policies and practices are overall very poor. The company shows limited awareness of corporate governance risks, and internal controls are almost non-existent. Significant deficiencies are apparent in the majority of areas rated and have led to significant material loss and investor concern.
