Rating Methodology

SAHA's "Private, Factoring, Leasing & Finance Companies" methodology (FLF-Priv.) for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's Corporate Governance Principles released on 30.12.2011

The CMB based these principles on the leading work of The World Bank, Organization of Economic Cooperation and Development (OECD) and the Global Corporate Governance Forum (GCGF), which has been established in cooperation with the representatives of these two organizations and private sector. Experts and representatives from the CMB, the Istanbul Securities Exchange and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose; additionally many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after the required evaluations. Accordingly, these Principles have been established as a product of contributions of all high-level bodies.

Within the Principles, "comply or explain" approach is valid. The implementation of the Principles is optional. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the company's governance practices in the future should all be included in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders and board of directors.

On the foundation of these Principles, SAHA Corporate Governance Rating methodology features over 400+ code criteria. During the rating process, each criterion is evaluated on the basis of information provided by the company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions).

Parallel to the CMB's directive, to reach an overall Corporate Governance Rating for "Private, Factoring, Leasing & Finance Companies" (FLF-Priv.), SAHA allocates the following weights to the four main sections of the Principles:

Shareholders: **30%**
Disclosure and Transparency: **20%**
Stakeholders: **20%**
Board of Directors: **30%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.
